

# Foundation Learning with JACE

## What is Foundation Learning?

Foundation Learning is a programme designed to allow learners to add to their school grades and make their own choices of which subjects to study.

It is aimed at those who are working most of the time at entry level or level 1. Our tutors assist in designing personal learning programmes that guide and progress to new qualifications.

Foundation Learning offers greater opportunities for personal progression and development.

Working through the Foundation Learning programme is a great way to build up self confidence, improve self-esteem and master both personal and team building skills.

*Foundation Learning is a great route if you didn't get English & Maths at grade A-C or you want to improve your basic qualifications.*

*It's personalised to suit your different needs*

Foundation Learning programmes consist of the following:

- ◆ Personal and Social Development, e.g. Healthy Living, Supporting Others
- ◆ Vocational Qualifications, e.g. Business and Administration, ICT, Playwork, Childcare

You will also do Functional English, Maths and ICT

# Foundation Learning with JACE

## How long does it take?

The length of the programme is flexible but the more effort made the quicker it will be completed.

## Where could it lead?

Foundation Learning can lead to:

- ◆ apprenticeships and advanced apprenticeships
- ◆ supported employment
- ◆ further training
- ◆ independent living
